SDG Urban Index

- In its journey towards localizing the Sustainable Development Goals (SDGs) and instituting robust SDG progress monitoring systems at the national, State/UT, and local levels, NITI Aayog has achieved yet another milestone with the launch of the inaugural SDG Urban Index & Dashboard (2021-22). The index and dashboard are a result of the NITI Aayog-GIZ and BMZ collaboration focused on driving SDG localization in our cities, under the umbrella of Indo-German Development Cooperation.
- The SDG Urban Index and Dashboard ranks 56 urban areas on 77 SDG indicators across 46 targets of the SDG framework. The data on these indicators have been sourced from official data sources such as NFHS, NCRB, U-DISE, data portals of various ministries, and other government data sources.
- The index and dashboard will further strengthen SDG localization and institute robust SDG monitoring at the city level. It highlights the strengths and gaps of ULB-level data, monitoring, and reporting systems. Tools such as this index and dashboard will contribute to the creation of an ecosystem in which all stakeholders will be equipped to adopt and implement data-driven decision

making. This transformative change is quite essential, given the increasing prominence of our cities and urban areas in charting the future of development in India.
