National Land Monetization Corporation

- The Union Cabinet today approved the setting up of National Land Monetization Corporation (NLMC) for undertaking surplus land monetization.
- It will be a wholly-owned government company with an initial authorized share capital of five thousand crore rupees and paid-up share capital of 150 crore rupees.
- The NLMC will undertake monetization of surplus land and building assets of Central Public Sector Enterprises (CPSEs) and other government agencies. With monetization of non-core assets, the government will be able to generate substantial revenues by monetizing unused and under-used assets.
- At present, CPSEs hold a considerable surplus, unused and under-used non-core assets in the nature of land and buildings.
- For CPSEs undergoing strategic disinvestment, monetization of these surplus land and non-core assets is important to unlock their value.
- This will also enable productive utilization of these under-utilized assets to trigger private sector investments, new economic activities, boost the local economy, and generate financial resources for economic and social infrastructure.
- The NLMC is also expected to own, hold, manage and monetize surplus land and building assets of CPSEs under closure and the surplus non-core land assets of government-owned CPSEs under strategic disinvestment. This will speed up the closure process of CPSEs and smoothen the strategic disinvestment process of CPSEs.
