IAF should become 'Aerospace Force': Rajnath Singh

- Defence Minister Rajnath Singh today exhorted the Indian Air Force (IAF) to become an "Aerospace Force" and be prepared to protect the country from the challenges of the future.
- "Change is the law of nature. It is eternal. This law is applicable to war as well. As students of military affairs and geopolitics, it is our duty to keep anticipating the nature of future wars. Steps are being taken by our adversaries toward military use of space. This is likely to have an adverse effect on our interests. We, therefore, need to identify and be fully prepared for the evolving security challenges," he said.
- Highlighting the importance of technology in wars, Shri Rajnath Singh said, the use of technology has seen an unprecedented increase in recent times. He, however, stated that expensive platforms/weapon systems do not alone ensure victory; it is their employment which gives an edge in wars. "Be it precision

guided munition, unmanned aerial vehicles or manpack anti-tank weapons, their deployment in any future war will be as critical as it had been in the past. Technology is a force multiplier, but without innovative deployment, state-of-the-art equipment will be a mere display,”
