 - Environmental Health
 - Ecosystem Vitality
 - Climate Change.
- Denmark tops the 2022 rankings Followed By UK & Finland.
- With a paltry score of 18.9, India's 180th ranking comes after Pakistan, Bangladesh, Vietnam and Myanmar.
- India has also scored low on rule of law, control of corruption and government effectiveness, according to EPI.

European Parliament Votes To Ban Sale Of New Cars

- Members of the European Parliament have voted to ban the sale of new petrol and diesel cars by 2035. The move aims to step up the fight against climate change through the faster development of electric vehicles.
- The voting was held on an amendment that would have allowed some auto emissions from new vehicles after 2035, which was rejected by Members of Parliament.
- The European Union assembly voted in Strasbourg, France to require automakers to cut carbon-dioxide emissions by 100 percent by the middle of the next decade. The mandate would amount to a prohibition on the sale in the 27-nation EU of new cars powered by gasoline or diesel.
- Members of the European Parliament still have to negotiate the final law with ministers from the EU's 27 national governments. Yesterday's vote has however increased the pressure on governments for a clear end to the internal combustion engine in the EU single market of 447 million people.

- Negotiations to determine the final shape of the law are set for later this year. If an agreement is reached, it effectively spells the end of the combustion-engine car in Europe, marking a radical overhaul of a form of transport.
- EU lawmakers also endorsed a 55 percent reduction in CO2 from automobiles in 2030 compared with 2021.
- The move deepens an existing obligation on the car industry to lower CO2 discharges by 37.5 percent on an average by the end of the decade.

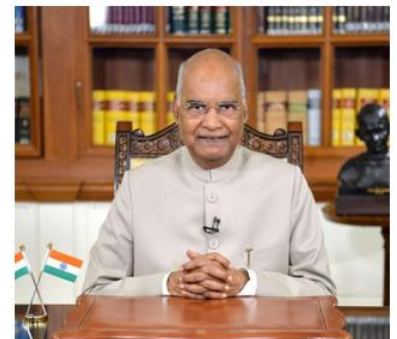

USA Votes To Raise The Age Limit For Buying Weapons

- In USA, the House of Representatives has voted to raise the nationwide age limit for buying semi-automatic weapons from 18 to 21. Local media reports, the measure would also ban the sale of ammunition magazines which can carry more than 15 rounds.
- The legislation passed the Democratic-majority House by a vote of 223-204.
- The package is unlikely to be adopted in the Senate, which is split 50-50 between Democrats and Republicans. Legislation requires at least 60 votes to pass the upper chamber.
- The move follows string of deadly mass shootings taking place in the country. US President Joe Biden has advocated a ban on assault weapons, among other measures, to curb gun violence.
