COMPREHENSION

DIRECTIONS

Read the following passage carefully and answer the questions given below it:

SSBCrack EXAMS

Over four hundred years after his death, scholars are still unravelling the mysteries of Michelangelo's art. Recently one mystery that was revealed was that his famous drawing of a pensive Cleopatra included a hidden drawing of a different Cleopatra on the reverse side. This hidden Cleopatra shows a tormented woman, whose eyes stare out at the viewer and whose mouth is open, screaming in horror. The two images, drawn on two sides of the same paper, can be viewed simultaneously. A second mystery concerns Michelangelo's architectural plan for the dome of St. Peter's Basilica in Rome. Did he intend for the dome to look like the model he built between 1558 and 1561 ? Or did he change his mind after building the model and decide to elevate the dome in the way it is today? Scholars do not agree on the answer. A third mystery about one of the greatest artists who ever lived was why he destroyed hundreds or thousands of his drawings before he died. Did he feel they were unimportant? Did he want posterity
to see only his finished products?

SSBCrack EXAMS

Q) The dome of St. Peter's Basilica:

(a) bears no relation to the one in the model

(b) was destroyed after the model was built

COMPREHENSION

DIRECTIONS

Read the following passage carefully and answer the questions given below it:

SSBCrack EXAMS

Over four hundred years after his death, scholars are still unravelling the mysteries of Michelangelo's art. Recently one mystery that was revealed was that his famous drawing of a pensive Cleopatra included a hidden drawing of a different Cleopatra on the reverse side. This hidden Cleopatra shows a tormented woman, whose eyes stare out at the viewer and whose mouth is open, screaming in horror. The two images, drawn on two sides of the same paper, can be viewed simultaneously. A second mystery concerns Michelangelo's architectural plan for the dome of St. Peter's Basilica in Rome. Did he intend for the dome to look like the model he built between 1558 and 1561 ? Or did he change his mind after building the model and decide to elevate the dome in the way it is today? Scholars do not agree on the answer. A third mystery about one of the greatest artists who ever lived was why he destroyed hundreds or thousands of his drawings before he died. Did he feel they were unimportant? Did he want posterity
to see only his finished products?

SSBCrack EXAMS

Q) The dome of St. Peter's Basilica:

(a) bears no relation to the one in the model

(b) was destroyed after the model was built
