NATO To Hold Nuclear Exercise Despite Russian Warnings

- NATO will push ahead with long-planned nuclear exercises next week despite rising tensions over the war in Ukraine and President Vladimir Putin's insistence that he is not bluffing about using all available means to defend Russian territory, NATO Secretary-General **Jens Stoltenberg** said Tuesday.
- The exercise, dubbed "**Steadfast Noon**," is held annually and usually runs for about one week.
- It involves fighter jets capable of carrying nuclear warheads but does not involve any live bombs. Conventional jets, and surveillance and refuelling aircraft also routinely take part.
- Fourteen of the 30 NATO member countries will be involved in the exercise, which was planned before Russia invaded Ukraine in February. The main part of the maneuvers would be held more than 1,000 kilometers from Russia.

Indian Army To Procure Electric Vehicles For Select Units

- The Indian Army decided to procure EV for select units and formations in sync with the government's overall policy of reducing carbon emissions, officials said. Around 25 % light vehicles, 38 % buses and 48 % motorcycles in select units will be replaced with EVs in a time-bound manner.
- Various factors unique to the Indian Army's employability, remote locations of employment and operational commitments were considered before finalising the roadmap for induction of EVs, the officials said.
- The Army is also planning setting up of solar panel-driven charging stations, which are also planned in a phased manner. An initial tender for procurement of 60 buses along with 24 fast chargers will soon be floated, he said.
- In April, the Indian Army had organised a demonstration of available EVs to Defence Minister Rajnath Singh where EV manufacturers such as Tata Motors, Perfect Metal Industries and Revolt Motors showcased their EVs and briefed about the enhancement in technology.

Indian Army Bets On Hire-to-retain Platform ZingHR To Automate HR Processes

- To streamline and automate all the HR processes in the army, ARTRAC has signed an MoU with HR Tech firm ZingHR. As part of the engagement, the start-up will do a proof-of-concept to consolidate different processes into a uniform interface to provide a seamless experience across the Indian Army.

- POC will assist the army in achieving higher levels of efficiency, data-driven decision-making, and enhanced transparency and security. The POC — 'Automation & Centralisation of Digital Processes of HRM of The Indian Army' — is expected to be completed within three to four weeks.
- ZingHR, which is backed by **Tata Capital Growth Fund** and was part of the June 2014 batch of **Microsoft Accelerator**, claims to leverage blockchain technology to aid in data storage and ensure military-grade data protection.
