

Mysterious Non Human Like Fossils Displayed In Mexico

Why In News

- In A Bizarre Event That Took Place In Mexico City, **Two Alleged Alien-Like** Corpses Were Unveiled At The Country's Congress.
- The Event Was Led By **Jaime Maussan**, A Renowned Journalist And Ufologist.
- The Spectacle Drew Significant Attention As The Small "Non-Human" Bodies Were Displayed In Transparent Boxes For Public Viewing.

Recovered From

- The Presentation That The Specimens Were Recovered Near **Peru's Ancient Nazca Lines** And Had Been **Carbon-Dated By Mexico's National Autonomous University (UNAM)** And Concluded To Be About 1,000 Years Old.
- Maussan Claimed They Were Not Related To Any Species On Earth.
- "I Think There Is A Clear Demonstration That We Are Dealing With Non-Human Specimens That Are Not Related To Any Other Species In Our World And That All Possibilities Are Open For Any Scientific Institution To Investigate It," Maussan Said.

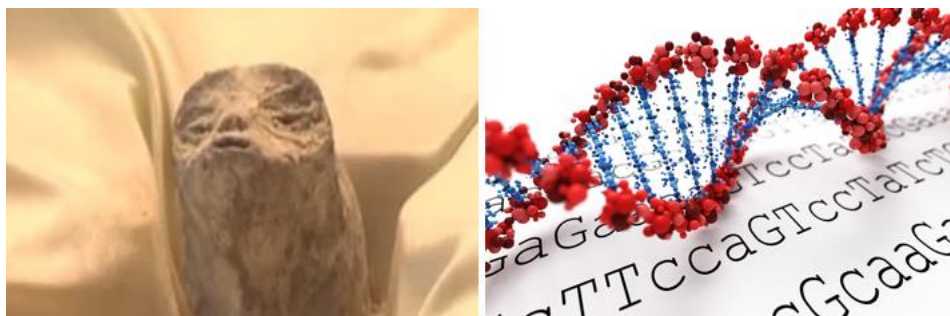

Features

- The Bodies Exhibited A **Humanoid Shape** But They Had Distinctive Features Such As A **Retractable Neck** And **Elongated Skulls**.
- Described As Having Characteristics More **Reminiscent Of Birds** According To Reports From The Mexican El Pais Newspaper.

- Additionally They Were Noted To Have Strong Yet **Lightweight Bones** And **Lacked Teeth**.
- Experts Claimed That One Of These Beings Was **Carrying Eggs** With Embryos Inside And Had Implants Made Of Cadmium And Osmium Metals.

Relation with Earth Species

- These Specimens Are **Not Part Of Our Terrestrial Evolution**.
- These Are Beings That Were Found After A **UFO Wreckage**.
- They Were Found In **Diatom Algae Mines** And Were Later Fossilized.
- Whether They Are Aliens Or Not We Don't Know But They Were Intelligent And They Lived With Us.

NASA UFO panel

- We Have Only Seen Reports On Twitter (X) And "**We Don't Know The Nature Of Those Samples**".
- Urged The Mexican Government To Make Samples Available To The World's Scientific Community.
- One Of The Main Things We're Trying To Do Here Today Is To Move Conjecture And Conspiracy Towards Science And Sanity And You Do That With Data," Dan Evans, An Assistant Deputy Associate Administrator For Research.
